Retreat Theme: *How To Live In The World In Which We Live*

-Scholarly focus: The 8th century prophets speak to a world much like our own...power-hungry, bloated, and vaguely religious. What might the prophets say to us, and how do we live in a world that has gone mad? Dr. Harold Shank, professor at Oklahoma Christian, will be teaching on this topic.

-Practical focus: God has given us many great resources to impact this world. Each of the speakers is something of an 'expert' on the things of which they will speak. How can our various ways of service make a difference?
